I. INTRODUCTION

A. RISK FACTORS

Standard Risk Factors:

- Investment in Mutual Fund Units involves investment risks such as trading volumes, settlement risk, liquidity risk, default risk including the possible loss of principal.
- As the price / value / interest rates of the securities in which the scheme invests fluctuates, the value of your investment in the scheme may go up or down.
- Mutual Fund investments are subject to market risks, read all scheme related documents carefully.
- Mutual Funds and securities investments are subject to market risks and there can be no assurance and no guarantee that the Scheme will achieve its objective.
- As with any investment in stocks, shares and securities, the NAV of the Units under this Scheme can go up or down, depending on the factors and forces affecting the capital markets.
- Past performance of the previous Schemes, the Sponsors or its Group / Affiliates / AMC / Mutual Fund is not indicative of and does not guarantee the future performance of the Scheme.
- The schemes may invest in long term debt securities which bears the interest rate risk. Volatility of interest rate may impact the scheme adversely.
- Investment in equity and equity related securities including option contracts involve high degree of risks and investors should not invest in the schemes unless they can afford to take the risk of losing their investment.
- The sponsors are not responsible or liable for any loss resulting from the operations of the scheme beyond the initial contribution of Rs. 1 lakh made by them towards setting up of the mutual fund.
- Tata Arbitrage Fund is only the name of the Scheme and does not in any manner indicate either the quality of the Scheme, its future prospects or the returns. Investors therefore are urged to study the terms of the Offer carefully and consult their Tax and Investment Advisor before they investing in the Scheme.
- Tata Arbitrage Fund is not guaranteed or assured return schemes.
- Tata Arbitrage Fund is an Equity Oriented Mutual Fund for taxation purpose. Equity oriented mutual fund mean a fund which has been set up under a scheme of a Mutual Fund specified under clause (23D) of Income Tax Act, 1961 where more than 65% of the investible funds are invested in equity shares of domestic companies. The percentage of equity shareholding of the fund shall be computed with reference to the annual average of the monthly averages of the opening and closing figures. In an event where the percentage of annual average of monthly averages of equity shares of domestic companies falls below 65% of the investible funds, then the scheme may be classified as Non-Equity Oriented Fund and it may have additional tax implication on investors.

Scheme Specific Risk Factors:

a. Risk associated with the Scheme's Strategy

The Scheme proposes to invest in equity and equity related instruments by identifying and exploiting price discrepancies in cash and derivative segments of the market. These investments by nature are volatile as the prices of the underlying securities are affected by various factors such as liquidity, time to settlement date, news flow, spreads between cash and derivatives market at different points of time, trading volumes, etc. There is no guarantee that the Fund Manager will be able to spot investment opportunities or correctly exploit price discrepancies in the different segments of the market. The Scheme is also expected to have a high portfolio churn, especially in a volatile market. There is an execution risk while implementing arbitrage strategies across various segments of the market, which may result in missed investment opportunities, or may also result in losses. In case of a large outflow from the Scheme, the Scheme may need to reverse the spot-futures transaction before the settlement of the futures trade. While reversing the spot-futures transaction on the Futures and Options settlement day on the exchange, there could be a risk of volume-weighted-average-price of the market being different from the price at which the actual reversal is processed resulting in basis risk.

There may be instances, where the price spread between cash and derivative market is insufficient to meet the cost of carry. In such situations, the fund manager due to lack of opportunities in the derivative market may not be able to outperform liquid / money market funds

Though the constituent stocks of most indices are typically liquid, liquidity differs across stock. Due to heterogeneity in liquidity in the capital market segment, trades on this segment do not get implemented instantly. This often makes arbitrage expensive, risky and difficult to implement.

b. Risks associated with investing in equities

Equity and Equity related instruments on account of its volatile nature are subject to price fluctuations on daily basis. The volatility in the value of the equity and equity related instruments is due to various micro and macro-economic factors affecting the securities markets. This may have adverse impact on individual securities /sector and consequently on the NAV of Scheme.

The inability of the Scheme to make intended securities purchases due to settlement problems could cause the Scheme to miss certain investment opportunities as in certain cases, settlement periods may be extended significantly by unforeseen circumstances. Similarly, the inability to sell securities held in the schemes portfolio may result, at times, in potential losses to the scheme, should there be a subsequent decline in the value of the securities held in the schemes portfolio.

Trading volumes, settlement periods and transfer procedures may restrict the liquidity of the investments. This may impact the ability of the unit holders to redeem their units. In view of this, the Trustee has the right, in its sole discretion to limit redemptions (including suspending redemptions) under certain circumstances.

Investments in equity and equity related securities involve high degree of risks and investors should not invest in the Scheme unless they can afford to take the risk of losing their investment.

c. Risks related to Arbitrage Strategy

- In case of a large redemption, the scheme may need to reverse the spot-futures transaction before the date of futures' settlement. This eventuality may lead to the basis risk. While reversing the spot-futures transaction on the Futures & Options settlement day on the Exchange, there could be a risk of volume-weighted-average-price of the market being different from the price at which the actual reversal is processed. This may result in basis risk.
- On the date of expiry, when the arbitrage is to be unwound, it is not necessary for the stock price and its future contract to coincide. There could be a discrepancy in their prices even a minute before the market closes. Thus, there is a possibility that the arbitrage strategy gets unwound at different prices.

d. Risks associated with investing in debt securities

- Investments in money market instruments would involve a moderate credit risk i.e. risk of an issuer's liability to meet the principal payments. Additionally, money market securities, while fairly liquid, lack a well-developed secondary market, which may restrict the selling ability of the Scheme and may lead to the Scheme incurring losses till the security is finally sold.
- Money market instruments are also subject to price volatility due to factors such as changes in interest rates (when interest rates in the market rise, the value of a portfolio of money market instruments can be expected to decline), general levels of market liquidity, market perception of credit worthiness of the issuer of such instruments and risks associated with settlement of transactions and re-investment of intermediate cash flows. The NAV of the Scheme's Units, to the extent that the Scheme is invested in money market instruments, will consequently be affected by the aforesaid factors. The AMC endeavours to manage such risk by the use of in house credit analysis.
- The performance of the Scheme may be affected by changes in Government policies, general levels of interest rates and risks associated with trading volumes, liquidity and settlement systems.
- Investments in different types of securities are subject to different levels and kinds of risk. Accordingly, the Scheme's risk may increase or decrease depending upon its investment pattern. E.g. investments in corporate bonds carry a higher level of risk than investments in Government Securities Further, even among corporate bonds, bonds which have a higher rating are comparatively less risky than bonds which have a lower rating.
- **Interest rate/price risk:** As with all debt securities, changes in interest rates may affect the NAV of the Scheme since the price of a fixed income instrument falls when the interest rates move up and vice versa. The effect is more prominent when the duration of the instrument is higher. Hence the NAV movement of the Scheme consisting of predominantly fixed income securities is likely to have inverse correlation with the movement in interest rates. In case of a floating rate instrument, this risk is lower as a result of periodic reset of the coupon. During the life of floating rate security or a swap, the underlying benchmark index may become less active and may not capture the actual movement in the interest rates or at times the benchmark may cease to exist. These types of events may result in loss of value in the portfolio.
- Government securities do carry price risk depending upon the general level of interest rates prevailing from time to time. The extent of fall or rise in the prices is a function of the coupon rate, days to maturity and the increase or decrease in the level of interest rates. The price of the Government securities (existing and new) is influenced only by movements in interest rates in financial systems.
- Floating rate securities issued by the Government (coupon linked to treasury bill benchmark or an inflation linked bond) have the least sensitivity to interest rate movements compared to other securities. Some of these securities are already in issue and the fund manager believes that more such securities may become available in future. These securities can play an important role in minimising interest rate risk in a portfolio.
- **Spread risk:** Though the sovereign yield curve might remain constant, investments in corporate bonds are exposed to the risk of spread widening between corporate bonds and gilts. Typically, if this spread widens, the prices of the corporate bonds tend to fall and so could the NAV of the Scheme. Similar risk prevails for the investments in the floating rate bonds, where the benchmark might remain unchanged, but the spread over the benchmark might vary. In such an event, if the spread widens, the price and the NAV of a Scheme could fall.
- **Sovereign risk:** The Central Government of a country is the issuer of the local currency in that country. The Government raises money to meet its capital and revenue expenditure by issuing debt or discounted securities. Since payment of interest and principal amount has a sovereign status implying no default, such securities are known as securities with sovereign credit. For domestic borrowers and lenders, the credit risk on such Sovereign credit is near zero and is popularly known as "risk free security" or "Zero Risk security". Thus Zero-Risk is the lowest risk, even lower than a security with "AAA" rating and hence commands a yield, which is lower than a yield on "AAA" security.
- **Credit risk or default risk:** This refers to inability of the issuer of the debt security to make timely payments of principal and/or interest due. In case of investments in government securities, the credit risk is minimal. It is reflected in the credit rating of the issuer. Hence if the credit rating of the issuer is downgraded, the price of the security will suffer a loss and the NAV will fall. Credit risk factors pertaining to lower rated securities also apply to lower rated zero coupon and deferred interest kind bonds. Lower rated zero coupon and deferred interest kind bonds carry an additional risk in that, unlike bonds that pay interest through the period of maturity, the Scheme by investing in these bonds will realize no cash till the cash payment date and if the issuer defaults, the Scheme may obtain no return on its investment.

- **Liquidity risk:** This represents the possibility that the realised price from selling the security might be lesser than the valuation price as a result of illiquid market. If a large outflow from the Scheme is funded by selling some of the illiquid securities, the NAV could fall even if there is
- No change in interest rates. Illiquid securities are typically quoted at a higher yield than the liquid securities and have higher bid offer spreads. Investment in illiquid securities results in higher current yield for the portfolio. Liquidity risk is a characteristic of the Indian fixed income market today. In addition, money market securities, while fairly liquid, lack a well-developed secondary market, which may restrict the selling ability of the Scheme and may lead to the Scheme incurring losses till the security is finally sold.
- The corporate debt market is relatively illiquid vis-a-vis the government securities market. Even though the government securities market is more liquid compared to that of other debt instruments, on occasions, there could be difficulties in transacting in the market due to extreme volatility or unusual constriction in market volumes or on occasions when an unusually large transaction has to be put through.
- **Re-investment risk:** This is associated with the fact that the intermediate cash flows (coupons or principal payment in case a security gets called or repurchased) may not be reinvested at the same yield as assumed in the original calculations.
- **Settlement risk:** Different segments of Indian financial markets have different settlement periods and such periods may be extended significantly by unforeseen circumstances. Delays or other problems in settlement of transactions could result in temporary periods when the assets of the Scheme are not invested and no return is earned thereon. The inability of the Scheme to make intended securities purchases, due to settlement problems, could cause the Scheme, to miss certain investment opportunities. Similarly, the inability to sell securities held in the Scheme's portfolio, due to the absence of a well developed and liquid secondary market for debt securities, may result at times in potential losses to such Scheme in the event of a subsequent decline in the value of securities held in the portfolio of the Scheme.
- **Market risk:** Lower rated or unrated securities are more likely to react to developments affecting the market and the credit risk than the highly rated securities which react primarily to movements in the general level of interest rates. Lower rated or unrated securities also tend to be more sensitive to economic conditions than higher rated securities.
- In addition to the factors that affect the values of securities, the NAV of Units of the Scheme will fluctuate with the movement in the broader fixed income market, money market and derivatives market and may be influenced by factors influencing such markets in general including but not limited to economic conditions, changes in interest rates, price and volume volatility in the bond and stock markets, changes in taxation, currency exchange rates, foreign investments, political, economic or other developments and closure of the stock exchanges.
- Investments in different types of securities are subject to different levels and kinds of risk. Accordingly, the Scheme's risk may increase or decrease depending upon its investment pattern. E.g. investments in corporate bonds carry a higher level of risk than investments in Government securities. Further, even among corporate bonds, bonds which have a higher rating are comparatively less risky than bonds which have a lower rating.

e. Risks associated with investing in derivatives

- The Scheme will invest in derivative products in accordance with and to the extent permitted under the Regulations and by RBI. Derivative products are specialized instruments that require investment techniques and risk analysis different from those associated with stocks and bonds. The use of a derivative requires an understanding not only of the underlying instrument but of the derivative itself. Trading in derivatives carries a high degree of risk although they are traded at a relatively small amount of margin which provides the possibility of great profit or loss in comparison with the principal investment amount. Thus, derivatives are highly leveraged instruments. Even a small price movement in the underlying security could have an impact on their value and consequently, on the NAV of the Units of the Scheme.
- Derivative products are leverage instruments and can provide disproportionate gains as well as disproportionate losses to the investors. Execution of such strategies depends upon the ability of the Fund Manager to identify such opportunities. Identification and execution of the strategies to be pursued by the Fund Manager involved uncertainty and decision of Fund Manager may not always be profitable. No assurance can be given that the Fund Manager will be able to identify or execute such strategies.
- Derivative products are specialized instruments that require investment techniques and risk analysis different from those associated with stocks and bonds. Derivatives require the maintenance of adequate controls to monitor the transactions entered into, the ability to assess the risk that a derivative add to the portfolio and the ability to forecast price of securities being hedged and interest rate movements correctly. There is a possibility that a loss may be sustained by the portfolio as a result of the failure of another party (usually referred to as the "counterparty") to comply with the terms of the derivatives contract. Other risks in using derivatives include the risk of mis-pricing or improper valuation of derivatives and the inability of derivatives to correlate perfectly with underlying assets, rates and indices.
- The risks associated with the use of derivatives are different from or possibly greater than, the risks associated with investing directly in securities and other traditional investments".
- The derivatives market in India is nascent and does not have the volumes that may be seen in other developed markets, which may result in volatility to the values.
- The Scheme(s) may face execution risk, whereby the rates seen on the screen may not be the rate at which the ultimate execution of the derivative transaction takes place.
- The Scheme(s) may find it difficult or impossible to execute derivative transactions in certain circumstances. For example, when there are insufficient bids or suspension of trading due to price limit or circuit breakers, the Scheme(s) may face a liquidity issue.
- Investments in index futures face the same risk as the investments in a portfolio of shares representing an index. The extent of loss is the same as in the underlying stocks.
- The Scheme(s) bears a risk that it may not be able to correctly forecast future market trends or the value of assets, indices or other financial or economic factors in establishing derivative positions for the Scheme.
- There is the possibility that a loss may be sustained by the portfolio as a result of the failure of another party (usually referred to as the "counter party") to comply with the terms of the derivatives contract. The counter party may default on a transaction before settlement and therefore, the Scheme(s) are compelled to negotiate with another counterparty at the then prevailing (possibly unfavourable) market price.
- The risk of loss in trading futures contracts can be substantial, because of the low margin deposits required, the extremely high degree of leverage involved in futures pricing and the potential high volatility of the futures markets.
- Where derivatives are used for hedging, such use may involve a basic risk where the instrument used as a hedge does not match the movement in the instrument/underlying asset being hedged. The risk may be inter-related also e.g. interest rate movements can affect equity prices, which could influence specific issuer/industry assets.

Other risks in using derivatives include the risk of mispricing or improper valuation of derivatives and the inability of derivatives to correlate perfectly with underlying assets, rates and indices.

f. Trading through mutual fund trading platforms of BSE and/ or NSE

In respect of transaction in Units of the Scheme through BSE and/ or NSE, allotment and redemption of Units on any Business Day will depend upon the order processing/settlement by BSE and/ or NSE and their respective clearing corporations on which the Mutual Fund has no control.

g. Other Scheme Specific Risk factors:

- **Performance Risk:** The Scheme's performance can decrease or increase, depending on a variety of factors, which may affect the values and income generated by a Scheme's portfolio of securities. The returns of the Scheme's investments are based on the current yields of the securities, which may be affected generally by factors affecting capital markets such as price and volume, volatility in the stock markets, interest rates, currency exchange rates, foreign investment, changes in government and Reserve Bank of India policy, taxation, political, economic or other developments and closure of the stock exchanges. Investors should understand that the investment pattern indicated for the Scheme, in line with prevailing market conditions, is only a hypothetical example as all investments involve risk and there can be no assurance that the Scheme's investment objective will be attained nor will the Scheme be in a position to maintain the model percentage of investment pattern/composition particularly under exceptional circumstances so that the interest of the unit holders are protected. The AMC will endeavour to invest in highly researched growth companies, however the growth associated with equities may be generally high as also the erosion in the value of the investments/portfolio in the case of the capital markets passing through a bearish phase is a distinct possibility. A change in the prevailing rates of interest is likely to affect the value of the Scheme's investments and thus the value of the Scheme's Units. The value of money market instruments held by the Scheme generally will vary inversely with the changes in prevailing interest rates.
- **Changes in Government Regulations:** The businesses in which companies operate are exposed to a range of government regulations, related to tax benefits, liberalization, provision of infrastructure and the like. Changes in such regulations may affect the prospects of companies.
- **Risk associated with potential change in Tax structure**

This summary of tax implications given in the taxation section (Units and Offer Section III) is based on the current provisions of the applicable tax laws. This information is provided for general purpose only. The current taxation laws may change due to change in the 'Income Tax Act 1961' or any subsequent changes/amendments in Finance Act/Rules/Regulations. Any change may entail a higher outgo to the scheme or to the investors by way of securities transaction taxes, fees, taxes etc. thus adversely impacting the scheme and its returns.

Risk Control / Mitigation measures for equity investments and related investments:

Investment in equity has an inherent market risk which cannot be mitigated generally. However, following measures have been implemented with an objective to mitigate /control other risks associated with equity investing:

Nature of Risk	Mitigation Measures
Regulatory Risk	<ul style="list-style-type: none"> • Online monitoring of various exposure limits by the Front Office System. Also as a backup, manual controls are also implemented.

Regulatory Risk	Online monitoring of various exposure limits by the Front Office System also as a backup, manual controls are implemented.

B. REQUIREMENT OF MINIMUM INVESTOR IN THE SCHEME

The Scheme shall have a minimum of 20 investors and no single investor shall account for more than 25% of the corpus of the Scheme. However, if such limit is breached during the NFO of the Scheme, the Fund will endeavor to ensure that within a period of three months or the end of the succeeding calendar quarter from the close of the NFO of the Scheme, whichever is earlier, the Scheme complies with these two conditions. In case the Scheme does not have a minimum of 20 investors in the stipulated period, the provisions of Regulation 39(2)(c) of the SEBI Regulations would become applicable automatically without any reference from SEBI and accordingly the Scheme shall be wound up and the units would be redeemed at applicable NAV. The two conditions mentioned above shall also be complied within each subsequent calendar quarter thereafter, on an average basis, as specified by SEBI. If there is a breach of the 25% limit by any investor over the quarter, a rebalancing period of one month would be allowed and thereafter the investor who is in breach of the rule shall be given 15 days notice to redeem his exposure over the 25 % limit. Failure on the part of the said investor to redeem his exposure over the 25 % limit within the aforesaid 15 days would lead to automatic redemption by the Mutual Fund on the applicable NAV on the 15th day of the notice period. The Fund shall adhere to the requirements prescribed by SEBI from time to time in this regard.

C. ASSET ALLOCATION AND RISK PROFILE

Under normal circumstances, when arbitrage opportunities are available and accessible, the asset allocation of the Scheme will be as follows:

Instruments	Indicative allocations (% of net assets)		Risk Profile
	Minimum	Maximum	High/Medium/Low
Equity and equity related securities and equity derivatives [§]	65	100	High
Debt, Money market instruments and cash (including units of liquid schemes of Tata Mutual Fund)	0	35	Low to Medium

§ The exposure to derivative shown in the above asset allocation table is exposure taken against the underlying equity investments i.e. in case the scheme shall have a long position in a security and a corresponding short position in the same security, then the exposure for the purpose of asset allocation will be counted only for the long position. The intent is to avoid double counting of exposure and not to take additional asset allocation with the use of derivative. If suitable arbitrage opportunities are not available in the opinion of the Investment manager, the Scheme may hedge the equity portfolio by using derivatives or may invest in short term debt / money market instruments.

The Scheme may invest upto 90% of its net assets in equity derivatives. The scheme will not invest in stock lending and short selling.

The scheme will not invest in following

- i. Foreign Securities
- ii. Domestic and Foreign Securitised Debt
- iii. Credit Default Swaps (CDS)
- iv. Equity linked debentures
- v. repo/reverse repo in corporate debt securities.

The Scheme will comply with all the applicable circulars issued by SEBI as regard to derivatives viz. SEBI Circular no. SEBI/MFD/CIR No. 03/ 158 /03 dated June 10, 2003, no. DNDP/Cir-29/2005 dated September 14, 2005, no. DNDP/Cir-30/2006 dated January 20 ,2006, no. SEBI/DNDP/Cir-31/2006 dated September 22, 2006, no. Cir/ IMD/ DF/ 11/ 2010 dated August 18, 2010 & SEBI/HO/IMD/DF2/CIR/P/2017/109 dated September 27,2017.The cumulative gross exposure to equity, equity related instruments, debt, money market instruments and derivatives shall not exceed 100% of the net assets of the scheme. Cash or cash equivalents with residual maturity of less than 91 days may be treated as not creating any exposure. Cash equivalent includes CBLO or any other instrument as allowed by SEBI , Reverse Repos, Fixed Deposits with Schedule Commercial Banks upto 91day maturity and money market instruments upto 91 days maturity.

The margin money requirement for the purposes of derivative exposure will be held in the form of Term Deposits, cash or cash equivalents or as may be allowed under the Regulations.

Change in Investment Pattern

The above mentioned investment pattern is indicative and may change for short duration. Subject to the SEBI (MF) Regulations, the asset allocation pattern indicated above may change from time to time, keeping in view market conditions, taxation laws, market opportunities, and political and economic factors. Such changes in the investment pattern will be for short term and defensive considerations. However, in the interest of investors, the AMC may invest beyond the range set out above. Such deviations shall normally be for a short-term purpose and for defensive considerations and the intention being at all times to protect the interests of the Unit Holders. For eg. In order to maintain equity scheme status of the scheme for taxation purpose, the equity exposure may be hedged temporarily when arbitrage opportunity is not available. **The Fund Manager shall rebalance the portfolio within 30 days from the date of deviation to bring it in line with the asset allocation pattern as indicated in this SID. Further, in case the rebalancing is not done within the specified period, justification for the same shall be provided to the Investment Committee and the reason for the same shall be recorded in writing. The Investment Committee shall then decide on the course of action.**

It may be noted that no prior intimation/indication will be given to investors when the composition/asset allocation pattern under the Scheme undergoes changes within the permitted band as indicated above.

Deployment of NFO Proceeds in CBLO or any other instrument as allowed by SEBI:

Mutual funds are allowed to deploy NFO proceeds in CBLO or any other instrument as allowed by SEBI before the closure of NFO period. However, AMCs will not charge any investment management and advisory fees on funds deployed in CBLO or any other instrument as allowed by SEBI during the NFO period. The appreciation received from investment in or any other instrument as allowed by SEBI shall be passed on to investors. Further, in case the minimum subscription amount is not garnered by the scheme's during the NFO period, the interest earned upon investment of NFO proceeds in CBLO or any other instrument as allowed by SEBI shall be returned to investors, in proportion of their investments, along-with the refund of the subscription amount.

Credit Evaluation Process for the investments in Debt Securities:

In-house credit evaluation team has the necessary capability of conducting independent due diligences of credit risk. From credit evaluation perspective, companies are broadly classified under two sectors - Industrials and Financial Institutions. Industrials include Manufacturing and trading companies, while Financial Institutions include Banks and Non-Banking Financial Companies (NBFCs). The set of parameters for evaluation of credits for these sectors are different.

Broad guidelines for the appraisal of Industrials for short-term and long-term exposure include, but are not restricted to:

- External Ratings threshold: Investment is made only if the issuer credit rating is at least investment grade for long-term debt by a credit rating agency recognized by SEBI. In the short-term, investment is made in top notch (A1+ or equivalent) rated debt instruments. However, this is subject to review from time to time and investment committee / Board of AMC approval is required for any exception.
- Each company is internally appraised based on various parameters including, but not restricted to:
 - Business Fundamentals: Product/Service offerings, Market Position, Competitive Landscape, and Product cycle etc.
 - Regulatory environment: Support/intervention, developmental stage of industry, level of regulation
 - Financial Analysis: Margins, Profitability, Leverage, Working Capital requirement and cycle, Cash-flows etc. This is also seen in light of historic trend.
 - Management Track Record: Management track record, performance of company through economic cycle, promoters' background, other group companies.
 - Macro-Economic Environment: Economic cycle, Credit cycle

In the short-term, the focus is more on the working capital cycle, near-term cash-flows and existing business position, while in the long-term the focus is more on the outlook of the business, capital expenditure program, profitability etc.

The credit evaluation policy is subject to review from time to time. Any material change in the credit evaluation policy will be updated by way of an addendum to the scheme information document.

The asset allocation among the various debt securities will be decided based upon the prevailing market conditions, macro economic environment and the performance of corporate sector, the debt market and other considerations.

The investment policies mentioned in this SID are in conformity with the provisions of various constitutional documents VIZ.MOA/AOA of the TAML/Trustee Company, IMA and the Trust Deed. Any change in the asset allocation affecting the investment profile of the scheme shall be effected only in accordance with the provisions of regulations 18-15A of SEBI (Mutual Funds) Regulations, 1996.

Note: The information contained herein is based on current market conditions and may change from time to time based on changes in such conditions, regulatory changes and other relevant factors. Accordingly, our investment strategy, risk mitigation measures and other information contained herein may change in response to the same.

Overview of Debt Market:

The major players in the Indian Debt Markets are banks, financial institutions, insurance companies and mutual funds. The instruments in the market can be broadly categorized as those issued by corporate, banks, financial institutions and those issued by state/central governments. The risk associated with any investments are – credit risk, interest rate risks and liquidity risk. While corporate papers carry credit risk due to changing business conditions, government securities are perceived to have zero credit risk. Interest rate risk is present in all debt securities and depends on a variety of macroeconomic factors. The liquidity risk in corporate securities market is higher compared to those of government securities. The liquidity risk in corporate securities market is higher compared to those of government securities. Liquidity in the corporate debt market has been improving due to the entry of more players and due to various measures taken by the regulators to increase the liquidity and transparency such as introduction of repo in corporate bonds, Credit Default Swaps, compulsory reporting of secondary market OTC transactions on exchange platforms to name a few. Moreover, the recent successful introduction of Interest Rate Future in the benchmark 10-year Government Bond will also likely to increase the depth in the debt market.

The market participants in the corporate debt and gilt markets are banks, financial institutions, mutual funds, corporates, insurance companies, FIs, primary dealers and provident funds. The main debt instruments in the market are those issued by Corporates and State/Central Governments. Corporate papers carry credit risk while government securities are believed to carry no credit risk. The main risks with investments in debt securities are interest rate risk, credit risk and liquidity risk. Interest rate risk associated with debt instruments depend on the macroeconomic environment. It includes both market price changes due to change in yields as well as coupon reinvestment rate risk. Corporate papers carry higher liquidity risk as compared to gilts due to the depth of the gilt market.

Money Market:

Money market encompasses a wide range of instruments with maturities ranging from one day to a year, issued by Government, Banks and corporates etc and traded in markets of varying liquidity. The risk associated with any investments are – credit risk, interest rate risk and liquidity risk. However, such risks are lower in case of money market instruments compare to other debt instruments. Further, within the gamut of money market instruments as available in the market, such risks are very low in case of instruments issued by government. While corporate papers carry credit risk due to changing business conditions, government securities are perceived to have zero credit risk.

The following table attempts to give a broad overview of the available instruments in the financial markets and their risk return profile. The data given in the table is based on market conditions around the date of the Offer document and can at best be considered indicative:

Expected Yields on Debt Securities (as on 15/11/2018)

Issuer	Instruments	Maturity	Yields (%)
GOI	T-Bill	91 days	6.85
GOI	T-Bill	364 days	7.27
GOI	Short dated	1-3 yrs	7.30-7.40
GOI	Long dated	3-5 yrs	7.40-7.55

D. WHERE WILL THE SCHEME INVEST

In line with the investment allocation pattern of the scheme, the scheme will predominantly invest in:

- i) Equity and equity related instruments of domestic companies and/ or equity derivatives such as options and futures.
- ii) Debt and money market instruments.

Investment in Equities:

Investment in equity and equity related instrument will include securities such as:

- Equity shares of listed and unlisted companies;
- Derivatives (which includes but is not limited to stock and index futures or such other derivatives as are or may be permitted under the Regulations and/or RBI from time to time).
- Convertible debentures;

- Preference shares/Convertible Preference Shares.

Investment in Debt Securities:

Investment in Debt and Money Market securities will include securities such as:

- Domestic fixed income Instruments like Commercial Paper, Certificate of Deposit, Non Convertible Debentures, Treasury Bills, CBLO or any other instrument as allowed by SEBI , Repo in Government Securities.
- Zero Interest Bonds, Deep Discount Bonds, Floating Rate Bonds.
- Government Securities.
- Short term deposit of the schedule commercial banks, subject to compliance with the SEBI circular no. SEBI/IMD/Cir No. 1/ 91171/07 dated April 16,2007.
- Domestic Interest Rate Derivatives like interest rate swaps, forward rate agreement, interest rate futures, options and such other derivative instruments as permitted by SEBI / RBI from time to time.
- Cash & Cash equivalent includes CBLO or any other instrument as allowed by SEBI , Repo, Fixed Deposit and all money market instruments with residual maturity of less than 91 days.
- Units of liquid fund of mutual funds
- Any other like instruments as may be permitted by SEBI/RBI from time to time.

The above lists are illustrative and not the exhaustive and may include other money market securities as may be available / introduced in the market.

The securities mentioned above could be listed, unlisted, privately placed, secured, unsecured, rated or unrated and of any maturity. The securities may be acquired through Initial Public Offerings (IPOs), secondary market operations, private placement, rights offers or negotiated deals. Please refer to the Clause "Liquidity & Settlement Risks" under Specific Risk Factors to understand the liquidity risk associated with securities. The moneys collected under this Scheme shall be invested only in transferable securities.

Derivatives and Hedging Products:

The Scheme may invest in Derivative Instruments to the extent permitted under SEBI Circulars DNP/Cir-29/2005 dated September 14, 2005, DNP/Cir-29/2005 dated January 20, 2006, SEBI/DNP/Cir-31/2006 dated September 22, 2006 and CIR/IMD/DF/11/2010 dated August 18, 2010 & SEBI/HO/IMD/DF2/CIR/P/2017/109 dated September 27,2017.

The cumulative gross exposure through equity, debt and derivative positions should not exceed 100% of the net assets of the scheme/s. Cash or cash equivalents with residual maturity of less than 91 days may be treated as not creating any exposure.

Futures:

A futures contract is an agreement between the buyer and the seller for the purchase and sale of a particular asset at a specific price on a specific future date. The price at which the underlying asset would change hands in the future is agreed upon at the time of entering into the contract. The actual purchase or sale of the underlying asset involving payment of cash and delivery of the instrument does not take place until the contracted date of delivery. A futures contract involves an obligation on both the parties to fulfill the terms of the contract. Currently, futures contracts have a maximum expiration cycle of 3-months. A futures contract on the stock market index gives its owner the right and obligation to buy or sell the portfolio of stocks characterized by the index. Stock index futures are cash settled; there is no delivery of the underlying stocks.

Options:

An option gives a person the right but not an obligation to buy or sell something. An option is a contract between two parties wherein the buyer receives a privilege for which he pays a fee (premium) and the seller accepts an obligation for which he receives a fee. The premium is the price negotiated and set when the option is bought or sold. A person who buys an option is said to be long in the option. A person who sells (or writes) an option is said to be short in the option.

An option contract may be of two kinds:

- 1) Call option: An option that provides the buyer the right to buy is a call option. The buyer of the call option can call upon the seller of the option and buy from him the underlying asset at the agreed price. The seller of the option has to fulfill the obligation upon exercise of the option.
- 2) Put option: The right to sell is called a put option. Here, the buyer of the option can exercise his right to sell the underlying asset to the seller of the option at the agreed price.

Option contracts are classified into two styles:

(a) European Style

In a European option, the holder of the option can only exercise his right on the date of expiration only.

(b) American Style

In an American option, the holder can exercise his right anytime between the purchase date and the expiration date.

Interest Rate Swap & Forward Rate Agreements

An interest rate swap is a financial contract between two parties exchanging a stream of interest payments for a notional principal amount on multiple occasions during a specified period.

Typically, one party receives a pre-determined fixed rate of interest while the other party, receives a floating rate, which is linked to a mutually agreed benchmark with provision for mutually agreed periodic resets.

Investment in Securities of Group Companies

As per SEBI (Mutual Funds) Regulations 1996, the Fund shall not make any investments in any un-listed securities of associate/ group companies of the Sponsors. The Fund will also not make investment in privately placed securities issued by associate / group companies of the Sponsors. The Fund may invest not more than 25% of the net assets in listed securities of Group companies.

E. THE INVESTMENT STRATEGIES

The investment strategy would be aimed at meeting the investment objective of the scheme. The investment strategy includes identifying and investing into arbitrage opportunities between spot/cash and futures prices of individual stocks and arbitrage opportunities available within the derivative segment. The Scheme may also invest in debt and money market securities instruments.

The Investment Strategy of the scheme is to invest primarily in arbitrage opportunities between spot and futures prices of exchange traded equities and the arbitrage opportunities available within the derivative segment. If suitable arbitrage opportunities are not available in the opinion of the Investment manager, the Scheme may hedge the equity portfolio by using derivatives or invest in short term debt and money market securities.

As arbitrage opportunities are dependent on ensuing market conditions, there will be a part of the portfolio, which will be invested in debt and money market securities. This component of the portfolio will provide the necessary liquidity to meet redemption needs and other liquidity requirements of the Scheme.

Further, the portfolio of the Scheme will be constructed in accordance with the investment restrictions specified under the Regulations which would help in mitigating certain risks relating to investments in securities market.

The arbitrage strategies the Fund may adopt could be as under. The list is not exhaustive and the Fund could use similar strategies and any other strategies as available in the markets.

1. Index / Stock spot - Index / Stock Futures

The pricing of the futures is derived from underlying Index spot or the underlying stock. It is the cost of carry that binds the value of the futures to the underlying portfolio. When the two go out of sync, there are opportunities.

The cost of carry links the futures price to the price of the underlying asset. The price of the futures at any given instance should typically be more than the level of the spot price at that point. Theoretically, the fair value of the futures is equal to the spot price of the underlying plus the cost of carry i.e. the interest rate prevailing for an equivalent credit risk. Cash and carry trades at times provide higher than the prevailing interest rates. There is an opportunity to exploit by selling the overpriced futures and buying the underlying portfolio. It may also happen that the Index / Stock Future may be at a discount. In such cases, the Scheme may buy the future and sell the stock after borrowing the same. The Scheme shall enter into a combination of these transactions simultaneously.

If the Scheme has to unwind the positions prior to the expiry on account of redemptions or any other reason, the returns would depend on the spread between the spot and futures price at which the position is unwound. If the price differential between the spot and futures position of the subsequent month maturity is attractive near the expiry date, then the scheme may rollover the futures position and continue with the position in the spot market. The Scheme shall endeavour to deploy its assets through transactions in the above pattern, which may involve Index Futures with Stock Futures or Futures of the same stock with different expiry months.

2. Cash Futures Arbitrage Strategy

The fund would look for market opportunities between the spot and the futures market. The cash futures arbitrage strategy can be employed when the price of the futures exceeds the price of the underlying stock. The fund would first buy the stocks in cash market and then sell in the futures market to lock the spread.

Buying the stock in cash market and selling the futures results in a hedge where the fund portfolio has locked in a spread and is not affected by the price movements in the spot and futures markets. The arbitrage position can be continued till expiry of the futures contracts. The futures contracts are settled based on the last half an hour's weighted average trade of the cash market. There is a convergence between the cash market and the futures market on expiry and this convergence results in the portfolio being able to generate the arbitrage return locked in earlier. However, the position may even be closed earlier in the event of the price differential being realized before expiry or better opportunities being available in other stocks / indexes. The strategy is attractive if this price differential (post all costs) is higher than the investor's cost-of capital.

Illustration of a Cash Futures Arbitrage Strategy:-

Buy 100 shares of Company X at Rs 1000 and sell the same quantity of stock's futures of the Company X at Rs 1100.

1. Market goes up and the price on the expiry day is Rs 2000.

At the end of the month (expiry day) the futures expires automatically:

Settlement price of futures = closing spot price = Rs 2000

Gain on stock is $100 \times (2000 - 1000) = \text{Rs } 100,000$

Loss on futures is $100 \times (1100 - 2000) = \text{Rs } - 90,000$

Net gain is $100,000 - 90,000 = \text{Rs } 10,000$

2. Market goes down and the price on the expiry day is Rs 500.

At the end of the month (expiry day) the futures expires automatically:

Settlement price of futures = closing spot price = Rs 500

Loss on stock is $100 \times (500 - 1000) = \text{Rs } -50,000$

Gain on futures is $100 \times (1100 - 500) = \text{Rs } 60,000$

Net gain is $60,000 - 50,000 = \text{Rs } 10,000$

Unwinding the position:

Buy 100 shares of Company X at Rs 1000 and sell the same quantity of stock's futures of the Company X at Rs 1100.

The market goes up and at some point of time during the month (before expiry) the stock trades at Rs 1200 and the futures trades at Rs 1190 then we unwind the position:

Buy back the futures at Rs 1190: loss incurred is $(1100 - 1190) \times 100 = \text{Rs } -9,000$

Sell the stock at Rs 1200: gain realized: $(1200 - 1000) \times 100 = \text{Rs } 20,000$

Net gain is $20,000 - 9,000 = \text{Rs } 11,000$

Rolling over the futures:

The Scheme may continue to stay invested in the stock in the Cash market. Close to expiry, if the stock's price is at Rs 1500 then the stock's futures is close to Rs 1500 as well. Also if the price of the current month stock futures is below the current price of the next month stock futures, the scheme may roll over the futures position to the next expiry:

The price of the stock futures next month contract is at Rs 1510

The price of the stock futures current month contract is at Rs 1500

Then sell the futures next month contract at Rs 1510 and buy back current month futures contract at Rs 1500 = gain of $100 \times (1510 - 1500) = \text{Rs } 9,000$ and the arbitrage position is rolled over.

3. Use of derivative for other Arbitrage Opportunities

a. Dividend Arbitrage

At the time of declaration of dividend, the stock futures / options market can provide a profitable opportunity. Generally, the stock prices decline by the dividend amount when the stock becomes ex-dividend.

b. Buy-Back / Open Offer Arbitrage

When the Company announces the buy-back or open offer of its own shares, there could be opportunities due to price differential in buyback price and traded price.

c. Weighted average price of futures on expiry.

The fund manager will aim at liquidating the cash market position in the last half an hour on expiry day at a rate that will be closed to weighted price in the spot market. However the extreme volatility in last half an hour may affect the price and accordingly affect the return. Accordingly fund will aim at taking exposure to those stocks where the bid and ask spread is minimum.

d. Reverse cash and carry arbitrage

If permitted by SEBI, the scheme may enter into reverse cash and carry arbitrage. This will involve borrowing stock for a defined period from a recognized counter-party and selling it in the market while simultaneously taking a long position in the stock futures. The above trade will be remunerative in scenarios where the stock/ index futures are trading at a discount to the underlying cash market. Once the discount narrows or converts to a premium, the position is unwound by buying back the stock/index and squaring off the futures transaction. The purchased stock/ index is returned to the lender as per the agreed terms.

The scheme may use fixed income derivative instruments like Interest Rate Swaps, Forward Rate Agreements or such other derivative instruments as may be introduced from time to time and as may be permitted under the SEBI (Mutual Fund) Regulations.

Interest Rate Swaps(IRS): An Interest Rate Swap is an agreement whereby two parties agree to exchange periodic interest payments. The amount of interest payments exchanged is based on some predetermined principal, called notional principal amount. The amount each counterparty pays to the other upon periodic interest rate multiplied by the notional principal amount. The only amount that is exchanged between the parties is the interest payment, not the notional principal amount.

Example: Use of IRS

The Plans of the fund are reasonably invested, and the view of the fund manager is interest rates are expected to move up due to certain negative events which have occurred. In such cases the plans can enter into a paid position (IRS) where the plans will pay a fixed rate for a specified maturity and receive the floating rate of interest. This is illustrated below:

Example A: Use of IRS

Assuming the Scheme is having 10% of the portfolio in cash. The fund manager has a view that the interest rate scenario is bearish and call rates are likely to spurt over the next three months. The fund manager would therefore prefer to pay fixed rate of return on his cash, which he is lending in the overnight call market. In other words, he would like to move to a 91 days floating interest rate from overnight fixed rate.

1. Say Notional Amount: Rs. 2 crores
2. Benchmark: NSE MIBOR
3. Tenor: 91 Days

4. Fixed Rate: 9.90%
5. At the end of 91 days;
6. The Scheme pays: fixed rates for 91 days is 9.90%
7. TMF receives: compounded call rate at 10.25% for 91 days.

In practice, however the difference of the two amounts is settled. Here the Scheme receives Rs. 2,00,00,000 x 0.35% x91 / 365 = 17,452. The players in IRS are scheduled commercial banks, primary dealers, corporate, mutual funds and All India Financial Institutions.

In view of the fund manager interest rates are expected to move down due to certain positive events which have occurred. In such cases the scheme can enter into a received position (IRS) where the scheme will receive a fixed rate for a specified maturity and pay the floating rate of interest. This is illustrated below:

Example B: Use of IRS

Assuming the Scheme is having 10% of the portfolio in cash. The fund manager has a view that the interest rate scenario is soft and call rates are unlikely to spurt over the next three months. The fund manager would therefore prefer to receive a higher rate of return on his cash, which he is lending in the overnight call market. In other words, he would like to move to a 91 days fixed interest rate from overnight floating rate.

1. Say Notional Amount: Rs. 2 crores
2. Benchmark: NSE MIBOR
3. Tenor: 91 Days
4. Fixed Rate: 10.25%
5. At the end of 91 days;
6. The Scheme pays: compounded call rates for 91 days is 9.90%
7. TMF receives: Fixed rate at 10.25% for 91 days.

In practice, however the difference of the two amounts is settled. Here the Scheme receives Rs. 2,00,00,000 x 0.35% x91 / 365 = 17,452. The players in IRS are scheduled commercial banks, primary dealers, corporate, mutual funds and All India Financial Institutions.

Forward Rate Agreements (FRA):

This is an agreement between two counterparties to pay or to receive the difference between an agreed fixed rate (the FRA rate) and the interest rate prevailing on a stipulated future date based on the notional amount, for an agreed period.

In view of the fund manager interest rates are expected to move up due to certain negative events which are expected to occur at a specified future date. In such cases the scheme can enter into a paid position (FRA) at a specified date in the future where the scheme will pay a fixed rate for a specified maturity and receive the floating rate of interest at a specified future date. This is illustrated below.

Assume that on June 1, 2018, the 30-day commercial paper (CP) rate is 7.75% and the Scheme has an investment in a CP of face value Rs. 50 crores, which is going to mature on June 30, 2018. If the interest rates are likely to remain stable or decline after June 30, 2018, and if the fund manager, who wants to re-deploy the maturity proceeds for 1 more month, does not want to take the risk of interest rates going down, he can then enter into a following forward rate agreement (FRA) say as on June 30, 2018:

He can receive 1 X 2 FRA on June 30, 2018 at 7.75% (FRA rate for 1 month lending in 2 months time) on the notional amount of Rs.50 crores, with a reference rate of 30 day CP benchmark. If the CP benchmark on the settlement date i.e. June 30, 2018 falls to 7.50%, then the Scheme receives the difference 7.75 - 7.50 i.e. 25 basis points on the notional amount Rs. 50 crores for 1 month. The maturity proceeds are then reinvested at say 7.50% (close to the benchmark). The scheme, however, would have locked in the rate prevailing on June 30, 2018 (7.75%) as it would have received 25 basis points more as settlement amount from FRA. Thus the fund manager can use FRA to mitigate the reinvestment risk.

In this example, if the rates move up by 25 basis points to 8% on the settlement date (June 30, 2018), the Scheme loses 25 basis points but since the reinvestment will then happen at 8%, effective returns for the Scheme is unchanged at 7.75%, which is the prevailing rate on June 30, 2018.

Mutual funds are allowed to hedge the portfolio or part of the portfolio (including one or more securities) on weighted average modified duration basis by using Interest Rate Futures (IRFs). The maximum extent of short position that may be taken in IRFs to hedge interest rate risk of the portfolio or part of the portfolio, is as per the formula given below:

(Portfolio Modified Duration*Market Value of the Portfolio)

(Futures Modified Duration*Futures Price/PAR)

The above derivative exposure limits shall be subject to following Exposure Limits (to be applicable for the schemes) as specified by SEBI vide its Circular No. Cir / IMD / DF / 11 / 2010 dated August 18, 2010:

1. *The cumulative gross exposure through equity, debt and derivative positions shall not exceed 100% of the net assets of the scheme.*
2. *Mutual Funds shall not write options or purchase instruments with embedded written options.*
3. *The total exposure related to option premium paid must not exceed 20% of the net assets of the scheme.*
4. *Cash or cash equivalents with residual maturity of less than 91 days shall be treated as not creating any exposure.*
5. *Exposure due to hedging positions shall not be included in the above mentioned limits subject to the following:*
 - a) *Hedging positions are the derivative positions that reduce possible losses on an existing position in securities and till the existing position remains.*
 - b) *Hedging positions cannot be taken for existing derivative positions. Exposure due to such positions shall have to be added and treated under limits mentioned in Point 1.*

- c) Any derivative instrument used to hedge has the same underlying security as the existing position being hedged.
 - d) The quantity of underlying associated with the derivative position taken for hedging purposes does not exceed the quantity of the existing position against which hedge has been taken.
6. Mutual Funds may enter into plain vanilla interest rate swaps for hedging purposes. The counter party in such transactions has to be an entity recognized as a market maker by RBI. Further, the value of the notional principal in such cases must not exceed the value of respective existing assets being hedged by the scheme. Exposure to a single counterparty in such transactions should not exceed 10% of the net assets of the scheme.
7. Exposure due to derivative positions taken for hedging purposes in excess of the underlying position against which the hedging position has been taken, shall be treated under the limits mentioned in point 1.

Definition of Exposure in case of Derivative Positions:

Each position taken in derivatives shall have an associated exposure as defined under. Exposure is the maximum possible loss that may occur on a position. However, certain derivative positions may theoretically have unlimited possible loss. Exposure in derivative positions shall be computed as follows:

Position	Exposure
Long Future	Futures Price*Lot Size*Number of Contracts
Short Future	Futures Price*Lot Size* Number of Contracts
Option Bought	Option Premium Paid*Lot Size* Number of Contracts.

In Addition to the above, SEBI has also prescribed following derivative limits:

As per SEBI circulars DNP/Cir-29/2005 dated September 14, 2005, circular No. DNP/CIR-30/2006 dated January 20, 2006 and SEBI/ DNP/Cir-31/2006 dated September 22, 2006 Mutual Funds are allowed to trade in derivatives Mutual Funds can trade in index futures, index options, stock options and stock futures contracts. Earlier Mutual Funds were only allowed to use derivatives for hedging and portfolio balancing.

Presently, the position limits for trading in derivatives by Mutual Fund specified by SEBI are as follows:

Position Limits for Mutual Fund and its scheme

Position limit for Index Options and Index Futures contracts	
Index Options Contract*	On a particular underlying index Rs.500 Crore or 15% of the total open interest of the market in equity Index options contracts, whichever is higher.
Index Futures Contract**	On a particular underlying index Rs.500 Crore or 15% of the total open interest of the market in equity Index futures contracts, whichever is higher.

* This limit would be applicable on open positions in all options contracts on a particular underlying index.

** This limit would be applicable on open positions in all futures contracts on a particular underlying index.

Additional position limit for hedging	
In addition to the position limits as mentioned above, Mutual Funds may take exposure in equity index derivatives subject to the following limits:	Short positions in index derivatives (short futures, short calls and long puts) shall not exceed (in notional value) the Mutual Fund's holding of stocks.
	Long positions in index derivatives (long futures, long calls and short puts) shall not exceed (in notional value) the Mutual Fund's holding of cash, government securities, T-Bills and similar instruments.
Position limit for Stock Options and Stock Futures contracts	
The combined futures and options position limit shall be 20% of the applicable Market Wide Position Limit (MWPL).	
This limit would be applicable on aggregate open positions in all futures and all option contracts on a particular underlying stock.	

Position limit for each scheme of a Mutual Fund

The scheme-wise position limit requirements shall be:

1. For stock option and stock futures contracts, the gross open position across all derivative contracts on a particular underlying stock of a scheme of a mutual fund shall not exceed the higher of:
 - 1% of the free float market capitalization (in terms of number of shares). Or
 - 5% of the open interest in the derivative contracts on a particular underlying stock (in terms of number of contracts)
2. This position limits shall be applicable on the combined position in all derivative contracts on an underlying stock at a Stock Exchange.
3. For index based contracts, Mutual Funds shall disclose the total open interest held by its scheme or all schemes put together in a particular underlying index, if such open interest equals to or exceeds 15% of the open interest of all derivative contracts on that underlying index.

Portfolio Turnover

Portfolio Turnover" is the term used by any Mutual Fund for measuring the amount of trading that occurs in a Fund's portfolio during the given period of time. As the scheme is an open ended equity scheme, it is expected that there would be a number of subscriptions and repurchase on a daily basis. Consequently, it is difficult to estimate with any reasonable measure of accuracy, the likely turnover in the portfolio. However, a high turnover would not significantly affect the brokerage and transaction costs. The Fund will endeavor to balance the increased cost on account of higher portfolio turnover with the benefits derived thereof. A high portfolio turnover rate is not necessarily a drag on portfolio performance and may be representative of arbitrage opportunities that exist for scrips/securities held in the portfolio rather than an indication of a change in Fund view on a scrip, etc.

Portfolio Turnover Ratio: The scheme is a new scheme and hence this disclosure is not applicable.

F. FUNDAMENTAL ATTRIBUTES

Following are the Fundamental Attributes of the scheme, in terms of Regulation 18 (15A) of the SEBI (MF) Regulations:

(i) Type of a scheme

An open ended equity scheme investing in arbitrage opportunities.

(ii) Investment Objective

The investment objective of the Scheme is to seek to generate reasonable returns by investing predominantly in arbitrage opportunities in the cash and derivatives segments of the equity markets and by investing balance in debt and money market instruments. There is no assurance that the objective of the Scheme will be realised and the Scheme does not assure or guarantee any returns.

Investment Pattern and Risk Profile:

Refer Section C for Asset Allocation and Risk Profile of the scheme .

(iii) Terms of Issue

- **Liquidity:** Repurchase/ Resale is at Net Asset Value (NAV) related prices with repurchase loads as applicable (within limits) as specified under SEBI Regulations 1996, the repurchase price shall not be lower than 93% of the NAV, the sale price will not be higher than 107% of the NAV and further that the difference between the sale and repurchase price shall not exceed 7% calculated on the sale price.

Listing is not envisaged as the Fund is an open-ended Fund, with the Fund providing for sales and repurchase on a continuous basis.

- Refer section "IV FEES AND EXPENSES" for aggregate fees and expenses chargeable to the Scheme(s).
- The scheme does not provide any safety net or guarantee nor does it provide any assurance regarding declaration of dividend. There is no guarantee or assurance that the scheme will achieve its' objective.

In accordance with Regulation 18(15A) of the SEBI (MF) Regulations, the Trustees shall ensure that no change in the fundamental attributes of the Scheme(s) and the Plan(s) / Option(s) thereunder or the trust or fee and expenses payable or any other change which would modify the Scheme(s) and the Plan(s) / Option(s) thereunder and affect the interests of Unitholders is carried out unless:

- (i) A written communication about the proposed change is sent to each Unitholder and an advertisement is given in one English daily newspaper having nationwide circulation as well as in a newspaper published in the language of the region where the Head Office of the Mutual Fund is situated; and
- (ii) The Unitholders are given an option for a period of 30 days to exit at the prevailing Net Asset Value without any exit load.

The new fund offer expenses will be borne by the AMC.

G. SCHEME BENCHMARK**Nifty 50 Arbitrage Index**

The Scheme intends to capitalize on the arbitrage opportunities between the cash and derivatives segment of the equity market to deliver short to medium term returns that are better than the yield on short term money market instruments.

The NIFTY 50 Arbitrage Index aims to measure the performance of such arbitrage strategies. The index measures performance of portfolio involving investment in equity and equivalent short position equity futures, short-term debt market investments and cash.

The AMC/Board of AMC and Trustee will review the performance of the Scheme in comparison to the benchmark i.e Nifty 50 Arbitrage Fund. Total Return variant of the index(TRI) will be used for performance comparison.

The Trustees may change the benchmark in future if a benchmark better suited to the investment objective of the Scheme is available.

1. The scheme shall not invest more than 10 per cent of its NAV in the equity shares or equity related instruments of any company.
2. The scheme shall not invest more than 5% of its NAV in unlisted equity shares or equity related instruments.
3. The Mutual Fund under its entire scheme shall not own more than ten percent of any company's paid up capital carrying voting rights.
4. A mutual fund scheme shall not invest more than 10% of its NAV in debt instruments comprising money market instruments and non-money market instruments issued by a single issuer which are rated not below investment grade by a credit rating agency authorized to carry out such activity under the Act. Such investment limit may be extended to 12% of the NAV of the scheme with the prior approval of the Board of Trustees and the Board of directors of the asset management company:

Provided that such limit shall not be applicable for investments in government securities, treasury bills and collateralized borrowing and lending Obligations.

Provided further that investment within such limit can be made in mortgaged backed securitised debts which are rated not below investment grade by a credit rating agency registered with the Board.

- 4A A mutual fund scheme shall not invest more than 10% of its NAV in unrated debt instruments issued by a single issuer and the total investment in such instruments shall not exceed 25% of the NAV of the scheme. All such investments shall be made with the prior approval of the Board of Trustees and the Board of asset management company.
5. The scheme shall not make any investment in;
 - a) any unlisted security of an associate or group company of the sponsor; or
 - b) any security issued by way of private placement by an associate or group company of the sponsor; or
 - c) the listed securities of group companies of the sponsor which is in excess of 25% of the net assets.
6. Transfers of investments from one scheme to another scheme in the same mutual fund shall be allowed only if:-
 - (a) such transfers are done at the prevailing market price for quoted instruments on spot basis.
Explanation- "spot basis" shall have same meaning as specified by stock exchange for spot transactions.
 - (b) the securities so transferred shall be in conformity with the investment objective of the scheme to which such transfer has been made.
7. The scheme may invest in another scheme under the same asset management company or any other mutual fund without charging any fees, provided that aggregate interscheme investment made by all schemes under the same management or in schemes under the management of any other asset management company shall not exceed 5% of the net asset value of the mutual fund.
8. Every mutual fund shall buy and sell securities on the basis of deliveries and shall in all cases of purchases, take delivery of relevant securities and in all cases of sale, deliver the securities:
Provided further that a mutual fund may enter into derivatives transactions in a recognized stock exchange, subject to the framework specified by the SEBI.
9. The mutual fund shall, get the securities purchased or transferred in the name of the mutual fund on account of the concerned scheme, wherever investments are intended to be of long term nature.
10. Pending deployment of funds of a Scheme in terms of investment objectives of the scheme, a mutual fund may invest them in short term deposits of schedule commercial banks, subject to SEBI circular no. SEBI/IMD/CIR No. 1/91171/07 dated April 16, 2007.

- a. The term 'short term' for parking of funds shall be treated as a period not exceeding 91 days.
- b. Such deposits shall be held in the name of each Scheme.
- c. Each Scheme shall not park more than 15% of its net assets in the short term deposit(s) of all the scheduled commercial banks put together. However, it may be raised to 20% with the prior approval of the Trustee. Also, parking of funds in short term deposits of associate and sponsor scheduled commercial banks together shall not exceed 20% of total deployment by the Mutual Fund in short term deposits.
- d. Each Scheme shall not park more than 10% of its net assets in short term deposit(s) with any one scheduled commercial bank including its subsidiaries.
- e. The Trustee shall ensure that the funds of each Scheme are not parked in the short term deposits of a bank which has invested in that Scheme.

The above provisions do not apply to term deposits placed as margins for trading in cash and derivative market.

11. The scheme shall not make any investment in any fund of funds scheme.
12. The scheme will not advance any loan for any purpose.
13. The fund shall not borrow except to meet temporary liquidity needs of the mutual funds for the purpose of repurchase/ redemption of units or payment of interest or dividend to the unitholders.
14. The fund shall not borrow more than 20 per cent of the net asset of the scheme and the duration of such a borrowing shall not exceed a period of six months.

These investment limitations / parameters (as expressed / linked to the net asset / net asset value / capital) shall in the ordinary course apply as at the date of the most recent transaction or commitment to invest, and changes do not have to be effected merely because, owing to appreciations or depreciations in value, or by reason of the receipt of any rights, bonuses or benefits in the nature of capital or of any scheme of arrangement or for amalgamation, reconstruction or exchange, or at any repayment or redemption or other reason outside the control of the Fund, any such limits would thereby be breached. If these limits are exceeded for reasons beyond its control, TAML shall adopt as a priority objective the remedying of that situation, taking due account of the interests of the Unitholders.

In addition, certain investment parameters (like limits on exposure to Sectors, Industries, Companies, etc.) may be adopted internally by TAML, and amended from time to time, to ensure appropriate diversification / security for the Fund. The Trustee Company / TAML may alter these above stated limitations from time to time, and also to the extent the SEBI (Mutual Funds) Regulations, 1996 change, so as to permit the Scheme to make its investments in the full spectrum of permitted investments for mutual funds to achieve its investment objective. As such all investments of the scheme will be made in accordance with SEBI (Mutual Funds) Regulations, 1996, including Schedule VII thereof.

Investment by the Asset Management Company

TAML (the AMC) may invest in the scheme(s)/plan(s)/fund(s), either in the initial issue or on an ongoing basis (from the secondary market), such amount, as they deem appropriate. The AMC shall not be entitled to charge any management fees on this investment in the scheme(s) / plan(s) / fund(s). Investments by the AMC will be in accordance with Regulation 25(17) of the SEBI (MF) Regulations, 1996.

As per regulation, the sponsors or asset management company (TAML) shall invest not less than one percent of the assets under management of the scheme or fifty lakh rupees, whichever is less, in the Growth option of the scheme and such investment will remain in the scheme till the scheme is wound up.

Compliance under Foreign Account Tax Compliance Act (FATCA) regulations:

United States of America (US) has introduced chapter no. 4 in the US Internal Revenue Code as a part of the Hiring Incentives to Restore Employment (HIRE) Act, which was enacted by the US legislature to create employment opportunities in US. The HIRE Act includes Foreign Account Tax Compliance Act (FATCA), which now forms a part of the US-IR Code. The regulations for FATCA have undergone revision since 2010 and the final regulations make the FATCA provisions effective from July 1, 2014.

The objective of FATCA is to detect "US Persons", who evade US taxes by using financial account maintained outside US. The US persons are defined as those who have either US citizenship or US residency. The FATCA stipulates reporting on -

- i. US taxpayers about certain foreign financial accounts and offshore assets.
- ii. Foreign Financial Institutions (FFIs) about financial accounts with them of US taxpayers or foreign entities in which US taxpayers hold substantial ownership interest.

FFIs (including mutual funds in India) are required to periodically report information on accounts of US persons, who maintain balances above a threshold. In the event of a default in the reporting of information on accounts of US taxpayers, a withholding of 30% of the payment made from US sources will be imposed on the recalcitrant account holders and non-participating Financial Institutions. SEBI vide its circular no. CIR/MIRSD/2/2014 dated June 30, 2014, has advised that Government of India and US Government have reached an agreement in substance on the terms of an Inter-Governmental Agreement (IGA) to implement FATCA and India is now treated as having an IGA in effect from April 11, 2014. Tata Asset Management Company Limited (TAML) is classified as a Foreign Financial Institution (FFI) under the FATCA provisions and in accordance therewith, the AMC would be required to comply with the rules & regulations of FATCA, from time to time.

In order to ensure compliance with FATCA and other rules / directions / notifications as may be issued by Government of India or other regulatory authority, Mutual Funds are required to institute a process to identify US Person investors and report the same.

Applicants are required to refer to the "FATCA information" section in the application and mandatorily fill/sign off on the same. Applications without this information / declaration being filled/signed off will be deemed as incomplete and are liable to be rejected. Investors are requested to note that the contents of the information to be provided/ declaration in the application form may undergo a change on receipt of communication / guidelines from Government of India or AMFI or SEBI or any other regulatory authority.

Common Reporting Standard (CRS)

On similar lines of FATCA, the Organization of Economic Development (OECD), along with the G 20 countries, of which India is a member, has released a 'Standard for Automatic Exchange of Financial Account Information in Tax matters'. In order to combat the problem of offshore tax evasion and avoidance and stashing of unaccounted money abroad, the G 20 & OECD countries have together developed a common reporting standard(CRS) on automatic exchange of information(AEOI). On June 3,2015 India has joined the Multilateral Competent Authority Agreement(MCAA) on AEOI. The CRS on AEOI requires the financial institutions of the 'source' jurisdiction to collect and report information to their tax authorities about account holders 'resident' in other countries. The information to be exchanged relates not only to individuals, but also to shell companies and trusts having beneficial ownership or interest in the 'resident' countries.

In view of India's commitment to implement the CRS on AEOI and also the IGA with USA and with a view to provide information to other countries necessary legislative changes has already been made in Finance Act & by

	<p>inserting Rules 114F to 114H and Form 61B to provide a legal basis for the Reporting Financial Institutions (RFIs) for maintaining and reporting information about the reportable accounts.</p> <p>cApplicants are required to refer to the “FATCA/CRS information” section in the application and mandatorily fill/sign off on the same. Applications without this information / declaration being filled/signed off will be deemed as incomplete and are liable to be rejected. Investors are requested to note that the contents of the information to be provided/ declaration in the application form may undergo a change on receipt of communication / guidelines from Government of India or AMFI or SEBI or any other regulatory authority.</p> <p>With the change in guidelines, investors may be called for additional information required by the law. Investors are requested to keep Mutual Fund updated with change in information already submitted by them with Mutual Fund. FATCA provisions are relevant not only at on-boarding stage of investor(s)/unit holder(s) but also throughout the life cycle of investment with the Fund/the AMC. In view of this, Investors should immediately intimate to the Fund/the AMC, in case of any change in their status with respect to FATCA/CRS related declaration provided by them previously.</p> <p>Investors(s)/Unit holder(s) should consult their own tax advisors to understand the implications of FATCA/CRS provisions /requirements.</p> <p>With the change in guidelines, investors may be called for additional information required by the law. Investors are requested to keep Mutual Fund updated with change in information already submitted by them with Mutual Fund.</p> <p>Applicants who cannot Invest.</p> <ul style="list-style-type: none"> • A person who falls within the definition of the term “U.S” Person” under the US Securities Act of 1933 and corporations or other entities organised under the laws of the U.S. • A person who is resident of Canada. • OCB (Overseas Corporate Bodies) as defined under Income Tax Act, 1061 and under Foreign Exchange Management Act, 1999. <p>The Fund reserves the right to include / exclude new / existing categories of investors to invest in the scheme from time to time, subject to SEBI Regulations and other than prevailing statutory regulations, if any.</p> <p>If a person resident of India at the time of subscription becomes a person resident outside India subsequently, shall have the option to either be paid Redemption value of Units, or continue into the Scheme if he/ she so desires and is otherwise eligible. However, the person who desires to continue in the Scheme shall not be entitled to any interest or any compensation during the period it takes for the Fund to record the change in Address and the Residential Status. Notwithstanding the aforesaid, the Trustee Company reserves the right to close the Unitholder account and to pay the Redemption value of Units, subsequent to his becoming a person resident outside India, should the reasons of expediency, cost, interest of Unitholders and other circumstances make it necessary for the Fund to do so. In such an event, no resident Unitholders who have subsequently become resident outside India shall have a right to claim the growth in capital and/ or income distribution.</p> <p>This scheme has not been registered in any country outside India. To ensure compliance with any Laws, Acts, Enactments, etc. including by way of Circulars, Press Releases, or Notifications of Government of India, the Fund may require/give verification of identity/any special/additional subscription-related information from /of the Unitholders(which may result in delay in dealing with the applications, Units, benefits, distribution, etc./giving subscription details, etc). Each Unitholder must represent and warrant to the Trustee Company/AMC that, among other things, he is able to acquire Units without violating applicable laws. The Trustee Company will not knowingly offer or sell Units to any person to whom such offer or sale would be unlawful, or might result in the Fund incurring any liability or suffering any other pecuniary disadvantages which the Fund might not otherwise incur or suffer. Units may not be held by any person in breach of the law or requirements of any governmental, statutory authority including, without limitation, Exchange Control Regulations. The Trustee company may, compulsorily redeem any Units held directly or beneficially in contravention of these prohibitions. In view of the individual nature of investment portfolio and its consequences, each Unitholder is advised to consult his/her own professional advisor concerning possible consequences of purchasing, holding, selling, converting or otherwise disposing of the Units under the laws of his/her State/country of incorporation, establishment, citizenship, residence or domicile.</p>

Special Products / facilities available during the NFO	<p>a) Systematic Investment Plan (SIP)</p> <p>The investors can benefit by investing specified Rupees amounts at regular intervals. The SIP allows the unitholders to invest a fixed amount of Rupees at regular intervals for purchasing additional units of the fund at NAV based prices. Investment can be done with the minimum / maximum amount and number of cheques specified by AMC from time to time. The cheques will be presented on the dates mentioned on the cheque and subject to realization. Units will be allotted at the applicable NAV along with applicable load (if any).</p> <p>SIP with Top-up SIP facility:</p> <p>SIP with Top-up SIP is a facility whereby an investor has an option to increase the amount of the SIP Installment by a fixed amount at pre-defined intervals. This will enhance the flexibility of the investor to invest higher amounts during the tenure of the SIP.</p> <p>The terms and conditions of top-up SIP are as follows:</p> <ol style="list-style-type: none"> i. The Top-up option must be specified by the investors while enrolling for the SIP facility. ii. The minimum SIP Top-up amount is Rs. 500 and in multiples of Rs. 500. iii. The Top-up details cannot be modified once enrolled. In order to make any changes, the investor must cancel the existing SIP and enroll for a fresh SIP with Top-up option. iv. Under monthly SIP investors can opt for top up amount at half-yearly and yearly intervals. If the investor does not specify the frequency, the default interval for Top-up will be considered as Yearly. v. In case of Quarterly SIP, investors can opt for only Yearly interval top-up frequency. <p>For complete details regarding the SIP with top-up facility, please refer to SIP Auto Debt Form with Top up facility enrollment form.</p> <p>b) Systematic Withdrawal Plan (SWP)</p> <p>This facility available to the unitholders of the fund enables them to redeem fixed sums or fixed number of units from their unit accounts at periodic intervals. The amount withdrawn under SWP by redemption shall be converted into the Fund units at the Repurchase price and such units will be subtracted from the unit balance of that unitholder. In case the date falls during a book closure period the immediate next Business day will be considered for this purpose.</p> <p>The Authorised Investor Service Center may terminate SWP on receipt of a notice from the unitholder. It will terminate automatically if all units are liquidated or withdrawn from the account or upon the receipt of notification of death or incapacity of the unitholder.</p> <p>“SWP facility is available subject to terms and conditions. Please refer to the SWP Enrolment form for terms and conditions before enrolment.”</p> <p>c) Systematic Transfer Plan (STP)</p> <p>A unitholder may establish a Systematic Transfer Plan (STP) and choose to transfer on a monthly or a quarterly basis from one TMF Scheme to another TMF Scheme on a date prescribed by the Investment Manager. The amount thus withdrawn by redemption shall be converted into units at the applicable NAV on the scheduled day and such units will be subtracted from the unit balance of that unitholder. Unitholders may change the amount, not below the specified minimum, by giving two weeks prior written notice to the registrars. STP may be terminated automatically if the balance falls below the minimum account balance or upon the receipt of notification of death or incapacity of the unitholders by the fund. Rules relating to the plan may be changed from time to time by the Investment Manager.</p> <p>“STP facility is available subject to terms and conditions. Please refer to the STP Enrolment form for terms and conditions before enrolment.”</p>

<p>Transactions through online facilities/electronic modes</p>	<p>Investor can transact through online facilities /electronic modes in Tata Mutual Fund Scheme. The time of transaction done through various online facilities / electronic modes offered by the AMC, for the purpose of determining the applicability of NAV, would be the time when the request for purchase / sale / switch of units is received in the servers of AMC/RTA.</p> <p>In case of transactions through online facilities / electronic modes, the movement of funds from the investors' bank account to the Scheme's bank account may happen via the Intermediary / Aggregator service provider through a Nodal bank account and post reconciliation of fund. The process of movement of funds from the investors' bank account into the Scheme's Bank account in case of online transaction is governed by Reserve Bank of India(RBI)vide their circular Ref. RBI/2009-10/231 DPSS.CO.PD.No.1102/02.14.08/2009-10 dated 24th November, 2009. The process followed by the aggregator and the time lines within which the Funds are credited into the Scheme's bank account is within the time lines provided by RBI which is T+3 settlement cycle / business days, where T is the date of Transaction / day of intimation regarding completion of transaction. The nodal bank account as stated above is an internal account of the bank and such accounts are not maintained or operated by the intermediary / aggregator or by the Mutual Fund.</p> <p>While the movement of Funds out of the investors' Bank account may have happened on T day, however post reconciliation and as per statutory norms, the allotment can happen only on availability of Funds for utilization by the AMC/MF and accordingly the transaction will processed as per the applicable NAV based on availability of funds for utilization. This lag may impact the applicability of NAV for transactions where NAV is to be applied, based on actual realization of funds by the Scheme. Under no circumstances will Tata Asset Management Limited or its bankers or its service providers be liable for any lag / delay in realization of funds and consequent pricing of units.</p>
<p>JUST SMS Facility</p>	<p>JUST SMS Facility enables the unitholders to</p> <ul style="list-style-type: none"> • Subscription of units of the scheme for amounts less than Rs 2 lacs. • Redemption of units in the scheme (any amount/All Units). • Switch out from the scheme (any amount/All Units).

This facility is currently available for existing investors (resident individuals only including guardian on behalf of minor) however new investor can avail this facility after opening a folio in the scheme/(s).

The said limits can be changed at the sole discretion of Tata Asset Management Ltd.

Process Note:

1. Unitholders are deemed to have read and accepted the terms and conditions as stated in the Scheme Information Documents (SID), Key Information Memorandum (KIM) and the Statement of Additional Information (SAI) including the terms and conditions of the 'Just SMS' facility.
2. Subscription transaction request can be accepted in "Amounts" only and Switch and Redemption transaction requests can be accepted in "Amounts/Units" , however the request for Unit based redemption/switches can be given for "ALL" units and not part thereof. The minimum subscriptions / redemption / Switch amount in the respective scheme/(s) will be applicable for each transaction. The load structure prevailing at the time of the purchase transaction will be applicable.
3. Mobile Number Registration: Unitholder(s) of the Fund will have to register a mobile number registered in India in their folio for availing this Facility. The mobile number provided in the debit mandate shall be updated in the folio for which the Facility is required. Additionally it will be registered in all the folios (if the same is not already available) where the First/Sole unit holder PAN number is same as the First/Sole unit holder PAN in the application, the updation of the mobile number will be only for purpose of database enhancement for all communication purposes. To avail this facility, only one mobile number will be registered with one folio number.
4. Unitholder(s) of the Fund can start transacting, using this Facility only after successful registration of the Debit Mandate with their bankers and receipt of confirmation from the AMC. The process of registering the bank mandate with the banker may take upto 30 days.
5. Unit holder(s) need to provide Original cancelled cheque of the same bank account registered in the registration form with the unit holder's name printed on the face of the cheque. In case an investor is not able to submit the Original cancelled cheque or do not have the name of the investor on the face of the cheque. Then the investor needs to submit:
 - a. Copy of the bank passbook attested by bank / Original bank statement with name address and bank account number of the investor.
 - b. A letter from the bank on its letter head certifying that the investor maintains an account with the bank, along with the information like the bank account number, bank branch, account type, the MICR code of the branch and the IFSC code.
 - c. Get the bankers attestation in the face of the form in the section BANKER'S Attestation (For BANK Use only)
 - d. If these supporting documents are not provided the registration may not be accepted. The Unit holder(s) cheque/ bank account details are subject to third party verification.
6. Transaction Charge: In accordance with SEBI circular No. Cir/ IMD/ DF/13/ 2011 dated August 22, 2011, TAML/TMF will deduct Transaction Charges from the purchase/ subscription amount received from the investors investing through a valid ARN Holder i.e. AMFI registered Distributor (provided the Distributor has opted to receive the Transaction Charges). Transaction Charge of Rs. 100 (for investor other than first time mutual fund investor) per purchase / subscription of Rs. 10,000 and above are deductible from the purchase / subscription amount and payable to the Distributor. The balance amount shall be invested.
7. In case the mode of holding of the folio is 'Joint' and the Debit Mandate is duly signed by all the joint holder(s), it will be deemed to be an express instruction to the AMC (Tata Asset Management Ltd) / RTA (Computer Age Management Service Pvt. Ltd), to keep the mode of holding to 'Anyone or Survivor' for availing this Facility only, so that this facility is available to the first named holder only. In case the unit holder is a "minor", the legal /natural guardian shall be eligible to avail of this Facility till the minor attains majority. As such legal/natural guardian may make payments from the minor's respective bank account (or in accordance with the exceptions provided for third party payments) and the same shall be recognized by the AMC as valid payment as per the SEBI Mutual Fund Regulations.
8. The Purchase Facility is currently available to the investors with the bank account with following bank branches:
 - a) All bank branches participating in Reserve Bank of India (RBI) Electronic Clearing System (ECS)/Regional Electronic Clearing System (RECS) facility.
 - b) Core Banking branches of the following Banks: Allahabad Bank, Axis Bank, Bank Of Baroda, Citibank, Corporation Bank, HDFC Bank, Federal Bank, ICICI Bank, IDBI Bank, Karnataka Bank,

Punjab National Bank, State Bank of India, Union Bank of India, United Bank of India.

Please note that the list of the banks and branches may be modified/updated/ changed/deleted from time to time in future at the sole discretion of the AMC without assigning any reason or prior notice. You may kindly refer the AMC web site www.tatamutualfund.com for the latest list of locations/banks.

9. Some banks and branches may levy charges for mandate registration and / or transactions to their bank account holders, which will be borne by the account holder only and will not be borne /reimbursed by the AMC or the Fund.
10. Unit holder(s) hereby confirms, acknowledges and undertakes to make payments for subscription of units from their respective bank account(s) in compliance with applicable provisions relating to third party payments detailed in the SID / SAI and that the payment will be through legitimate sources only.
11. The responsibility of the bank account information provided in the Debit Mandate or any other application form for this Facility solely rests with the Unit holder(s) and the AMC / Fund / RTA will not be responsible or liable for any loss, claims, liability that may arise on account of any incorrect and / or erroneous data / information supplied by the Unit holder(s).
12. It will be the sole responsibility of the unit holder(s) bank and its branch to ensure proper registration of the Debit Mandate and confirm registration. If no confirmation of registration or rejection is received from the banker, the AMC/RTA/it's agents will deem the same to be registered and confirm the registration to Unit holder(s) entirely at the risk of Unit holder(s).
13. The Unit holder(s) shall ensure availability of clear funds in their respective bank account, as specified in the Debit Mandate, at the time of requesting a Transaction using the Facility and at the time of bank account being debited
14. The bank account of the customer may be debited towards purchases either on the same day of transaction or within one to seven business days depending on ECS cycle. The AMC / RTA shall attempt to settle the transaction and debit the bank account by requesting the registered bank for release of funds as per direct debit arrangement or standing instruction or RBI ECS (Debit) facility generally within a period of one to seven working days for bank. However, in case of non- receipt of the funds, for whatsoever reasons, the transaction shall stand cancelled/ null and void and the units allotted, if any would be reversed and stands cancelled.
15. The request for transaction is to be considered as accepted, subject to realization of funds towards purchases, and only on receipt of the confirmation from RTA on the registered mobile number or email id of the Unit holder(s) of the Fund.
16. The applicable NAV for the transaction will be dependent upon the time of receipt of the SMS into Computer Age Management Service Pvt. Ltd, Registrar & Transfer Agent of the Fund, ('RTA') server, electronically time-stamped and other factors like scheme, type of transaction, amount, date of realization of funds under SEBI regulations and will be treated on par with similar transactions received through other modes. For the purpose of this Facility, such RTA office centre would be considered as an Official Point of Acceptance of the transaction.
17. Any transaction request on a Non-Business Day will be processed on the next Business Day in accordance with the provisions provided in the Scheme Information Document ('SID') of the respective scheme.
18. If the transaction is delayed or not effected at all for reasons of incomplete or incorrect information/key word or due to non-receipt of the SMS message by the RTA or due to late receipt of SMS due to mobile network congestions or due to any reason whatsoever, the Unit holder(s) will not hold the Fund, AMC and the RTA responsible for the same.
19. In case of non-receipt of confirmation from RTA within a reasonable time (around one hour), Unit holder(s) are advised to immediately call up the call centre on toll free no. 1800-209-0101 to confirm the status of the transaction request. In case of receipt of multiple confirmations from the RTA against a single transaction request, the same needs to be brought to the immediate attention of RTA and the AMC by calling up the call centre on toll free no. 1800-209-0101.
20. The Unit holder(s) availing the Facility shall check his / her bank account records carefully and promptly. If the Unit holder(s) believes that there has been an error in any transaction using the Facility, or that an unauthorized transaction has been effected, the Unit holder(s) shall notify the AMC or the RTA immediately by calling up the call centre on toll free no. 1800-209-0101. For faster dissemination of information, Unitholders are requested to provide their E-mail IDs. Delivering service through the internet & web-based services such as e-mail is a more efficient delivery channel. Annual report, Account statements & other communication will be sent via email, by default, to investors who have provided their email ID, unless specified otherwise. The Investor shall from time to time intimate the Mutual Fund / its transfer agents about any changes in the email address. In case of a large document, a suitable link would be provided & investor can download, save & print these documents. However,

	<p>the investor always has a right to demand a physical copy of any or all the service deliverables, & the Fund would arrange to send the same to the investor. It is deemed that the Unitholder is aware of all the security risks associated with online communication, including the possibility of third party interception of the documents sent via email. Mutual Fund / registrar shall not be responsible for e-mail not reaching to the investors and for all consequences thereof.</p> <p>21. Unitholder(s) of the Fund agrees and acknowledges that any transaction, undertaken using the registered mobile number shall be deemed to be that of the Unitholder(s).</p> <p>22. Unit holder(s) will also need to inform the AMC/RTA about any change in their bank account number, mobile number or email id through a duly signed written request in the specified format and supporting documents.</p> <p>23. The Unit holder(s) agree that the Fund/AMC / RTA and their agents shall not be held liable for any unsuccessful registration and or transaction due to any action or inaction of the Unit holder(s) bank including but not limited to reasons mentioned below and agree to indemnify the Fund/AMC/RTA for all liabilities, losses, damages and expenses which they may consequent sustain or incur either directly or indirectly:</p> <ul style="list-style-type: none"> a) Loss of the Debit Mandate in transit from point of acceptance of the form to RTA head office and further to the Unit holder(s)' bank branch; b) Non acceptance or rejection of Debit Mandate for whatsoever reason by the Unit holder(s)' bank branch, with or without any reason assigned by the Unit holder(s) bank; c) Non registration of the Debit Mandate by the Unit holder(s)' bank and branch; d) Deemed registration due to non confirmation of registration or subsequent rejection by the bank and any subsequent rejection of debit of bank account for funds; e) Non availability of funds in the bank account of the Unit holder(s) at the time of debit Rejection of registration or transaction debit for any reason or without assigning any reason whatsoever. <p>24. Employee Unique Identification Number (EUIIN): Further, SEBI has made it compulsory for every employee/ relationship manager/ sales person of the distributor of mutual fund products to quote the EUIIN obtained by him/her from AMFI in the Application Form. EUIIN would assist in addressing any instance of mis-selling even if the employee/relationship manager/sales person later leaves the employment of the distributor. Hence, if your investments are routed through a distributor please ensure that the EUIIN is correctly filled up in the Registration Form. However, if your distributor has not given you any advice pertaining to the investment, the EUIIN box may be left blank. In this case you are required to tick (<input type="checkbox"/>) the declaration to this effect as given below.</p> <p>The AMC reserve the right to reject an application if it deems appropriate</p>
<p>Official Points of Acceptance of Transaction through MF utility</p>	<p>Tata Mutual Fund has entered into an agreement with MF Utilities India Private Limited ("MFUI"), a "Category II - Registrar to an Issue" under SEBI (Registrars to an Issue and Share Transfer Agents) Regulations, 1993, for usage of MF Utility ("MFU") - a shared services initiative of various asset management companies, which acts as a transaction aggregator for transacting in multiple schemes of various mutual funds with a single form and a single payment instrument. Accordingly, all the authorized Point of Sales(POS) and website/mobile application of MFUI (available currently and also updated from time to time) shall be eligible to be considered as 'official points of acceptance' for all financial and non-financial transactions in the schemes of Tata Mutual Fund either physically or electronically. The list of POS of MFUI is published on the website of MFUI at www.mfuindia.com.</p> <p>Applicability of NAV shall be based on time stamping as evidenced by confirmation slip given by POS of MFUI and also the realization of funds in the Bank account of Tata Mutual Fund (and NOT the time of realization of funds in the Bank account of MFUI) within the applicable cut-off timing. The Uniform Cut -off time as prescribed by SEBI and mentioned in the SID / KIM shall be applicable for applications received through such facilities.</p> <p>Investors are requested to note that MFUI will allot a Common Account Number ("CAN") i.e. a single reference number for all investments in the mutual fund industry for transacting in multiple schemes of various mutual funds through MFU and to map existing folios, if any. Investors can create a CAN by submitting the CAN Registration Form and necessary documents at the POS. The AMC and/or its Registrar and Transfer Agent shall provide necessary details to MFUI as may be needed for providing the required services to investors/distributors through MFU. Investors are requested to visit the website of MFUI i.e. www.mfuindia.com to download the relevant forms.</p> <p>For any queries or clarifications related to MFU, please contact the Customer Care of MFUI on 1800-266-1415 (during the business hours on all days except Sunday and public holidays) or send an email to clientservices@mfuindia.com.</p>
<p>Cash Investments</p>	<p>Cash Investments in the Scheme Pursuant to SEBI circular dated September 13, 2012 and SEBI circular dated May 22, 2014, it is permitted to accept cash transactions to the extent of Rs. 50,000/- subject to compliance with Prevention of Money Laundering Act, 2002 and Rules framed there under and the SEBI Circular(s) on Anti Money Laundering (AML) and other applicable AML rules, regulations and guidelines. Provided that the limit shall be applicable per investor for investments done in a financial year across all schemes of the Mutual Fund, subject to sufficient systems and procedures in place for such acceptance. However, any form of repayment either by</p>

way of redemption, dividend, etc. with respect to such cash investment shall be paid only through banking channel.

Tata Asset Management Limited is in process of implementing adequate systems and controls to accept Cash Investment in the Scheme. Information in this regard will be provided to Investors as and when the facility is made available.

In compliance with the Circular No. CIR/MRD/DP/31/2014 dated November 12, 2014, Circular No. SEBI/HO/IMD/DF2/CIR/P/2016/42 dated March 18, 2016 read with SEBI/HO/IMD/DF2/CIR/P/2016/89 dated September 20,2016 & SEBI/HO/IMD/DF2/CIR/P/2018/137 dated October 22, 2018, Tata Mutual Fund will send the Consolidated Account Statement (CAS) to investors as follows:</p> <ol style="list-style-type: none"> 1. A single Consolidated Account Statement (CAS) on basis of PAN (PAN of the first holder & pattern of holding, in case of multiple holding) will be dispatched to unitholders having Mutual Fund investments & holding Demat accounts by Depositories within ten days from the end of the month in which transaction (the word ‘transaction’ shall include all financial transactions in demat accounts/Mutual Fund folios of the investor) takes place. 2. The CAS will not be received by the investors for the folio(s) not updated with PAN details. The Unit holders are therefore requested to ensure that the folio(s) are updated with their PAN. Such investors will get monthly account statement from Tata Mutual Fund in respect of transactions carried out in the schemes of Tata Mutual Fund during the month. 3. In other cases i.e. where unitholders having no Demat account & only MF units holding, Tata Mutual Fund shall continue to send the CAS as is being send presently within ten days from the end of the month in which financial transaction takes place. 4. In case statements are presently being dispatched by e-mail either by the Fund or the Depository then CAS will be sent through email. However the Unitholders have an option to receive CAS in physical form at the address registered in the Depository system. 5. The dispatch of CAS by Depositories to Unitholders would constitute compliance by Tata Asset Management Ltd / the Fund with the requirements under Regulation 36(4) of SEBI (Mutual Funds) Regulations 1996. 6. Each CAS issued to the investors shall also provide the total purchase value / cost of investment in each scheme. 7. In case if no transaction has taken place in a folio during the period of six months ended September 30 and March 31, the CAS detailing the holdings across all schemes of all mutual funds, shall be emailed on half yearly basis, on or before the tenth day of succeeding month, unless a specific request is made to receive the same in physical form. 8. Half-yearly CAS shall be issued to all Mutual Fund investors, excluding those investors who do not have any holdings in MF schemes and where no commission against their investment has been paid to distributors, during the concerned half-year period. Further, CAS issued for the half-year(September/March) shall also provide:

TATA ARBITRAGE FUND

	<p>a. The amount of actual commission paid by Tata AMC/Mutual Fund to distributors (in absolute terms) during the half-year period against the concerned investor's total investments in each mutual fund scheme. C. LOAD STRUCTURE

Load is an amount which is paid by the investor to subscribe to the units or to redeem the units from the scheme. Load amounts are variable and are subject to change from time to time. As per SEBI circular SEBI/IMD/CIR No. 4/168230/09 dated June 30, 2009 there shall be no entry load for all Mutual Fund schemes. Goods & Services Tax on exit load, if any, shall be paid out of the exit load proceeds and exit load net of Goods & Services tax, if any, shall be credited to the scheme.

The Load Structure of the Scheme is given hereunder:

Type of Load	Load chargeable (as %age of NAV)
Entry Load	N.A.
Exit	0.25 % of the applicable NAV, if redeemed/switched out/withdrawn on or before expiry of 30 Days from the date of allotment.

Bonus units and units issued on reinvestment of dividends shall not be subject to exit load. Goods & Services Tax on exit load, if any, shall be paid out of the exit load proceeds and exit load net of Goods and Service tax, if any, shall be credited to the scheme.

Any imposition or enhancement in the load shall be applicable on prospective investments only. However, AMC shall not charge any load on issue of bonus units and units allotted on reinvestment of dividend for existing as well as prospective investors. At the time of changing the load structure, the mutual funds may consider the following measures to avoid complaints from investors about investment in the schemes without knowing the loads:

(i) The addendum detailing the changes may be attached to Scheme Information Documents and key information memorandum. The addendum may be circulated to all the distributors/brokers so that the same can be attached to all Scheme Information Documents and key information memoranda already in stock.

(ii) Arrangements may be made to display the addendum in the Scheme Information Document in the form of a notice in all the investor service centres and distributors/brokers office.

(iii) The introduction of the exit load along with the details may be stamped in the acknowledgement slip issued to the investors on submission of the application form and may also be disclosed in the statement of accounts issued after the introduction of such load.

(iv) A public notice shall be given in respect of such changes in one English daily newspaper having nationwide circulation as well as in a newspaper published in the language of region where the Head Office of the Mutual Fund is situated.

(v) Any other measures which the mutual funds may feel necessary.
